

Fund Summary

As of 31 March, 2026

The Themes US Infrastructure ETF (HWAY) seeks to track the Solactive United States Infrastructure Index (SOLUSIST), which identifies 100 US infrastructure companies that derive their revenues from either: Building Materials & Equipment, Construction, Logistics, Engineering Services, HWAY seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the SOLUSIST Index.

Potential Benefits

- Infrastructure Investment:**
 The 2021 Bipartisan Infrastructure Law has directed \$1.2 trillion of US federal funds towards transportation, energy, and climate infrastructure projects through 2026, driving significant continued demand for construction services.
¹Source: United States Treasury 31 August 2024
- Federal Funding:**
 To date, over \$400 billion in federal funding authorized by the 2021 Bipartisan Infrastructure Law has been allocated to over 40,000 infrastructure projects across the US, including \$200 billion to road, bridge, airport, rail, and waterway investments alone.

Investing involves risk, including the possible loss of principal. Narrowly focused investments typically exhibit higher volatility. Investments in infrastructure-related companies have greater exposure to the potential adverse economic, regulatory, political and other changes affecting such entities. Investment in infrastructure-related companies are subject to various risks including governmental regulations, high interest costs associated with capital construction programs, costs associated with compliance and changes in environmental regulation, economic slowdown and excess capacity, competition from other providers of services and other factors. HWAY is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. The market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates current NAV per share, and do not represent the returns you would receive if you traded shares at other times. NAVs are calculated using prices as of 4:00 PM Eastern Time. Indices are unmanaged and do not include the effect of fees, expenses, or sales charges. One cannot invest directly in an index.
